

ABSTRACT

Topic : Shadowshare

Project Nature: New Topic

Completion Level: Zero

Nowadays there are many people who need help from the community. It might be a student , Disabled person or Backward Individual. It is very important to provide help to the right people. Sometimes people will misuse the chances of getting help. It is a very difficult task to find right people who is interested in helping others and who need help. We can help people either by providing funds or by providing equipment's they want. We can run these process efficiently by making them online.

This project enable users to request fund or equipment's from Sponsors. The customer could be a student, Disabled person or a backward individual. They just need an account with their valid details authorised by an authority. This project allow people to provide help to needy people. They are called sponsors. They can either donate fund or equipment's for the customers. They can view the details of customers and provide the help as needed if they wish. Another functionality it provide is creating a circle of people that enable people to discuss about a current issue and raising fund to overcome that situations.
